

CORM/ISCC 2017 Joint Technical Conference

First Announcement and Call for Papers

July 31 – August 2, 2017

The CORM/ISCC 2017 Joint Technical Conference and Business Meeting will be held in Troy, NY – in cooperation with the Lighting Research Center at Rensselaer Polytechnic Institute. The conference themes include:

Topics in Solid State Lighting (SSL)
Optical Properties of Materials
Display Metrology
UV Radiometry
Current Research Activities at NIST, NRC & CENAM
Emerging Professionals*.

and a special session for

The CORM Technical Conference is structured to provide interaction between the optical radiation industry and National Metrology Institutes (NMI's) such as the National Institute of Standards and Technology (NIST), National Research Council (NRC) of Canada, and National Center for Metrology (CENAM) of Mexico. The ISCC Technical Conference is intended to further the Society's goal to stimulate work, to describe and specify color, to promote color applications and communications across diverse platforms, and to foster educational opportunities for color work being done in the public and private sector.

**The Emerging Professionals session is open to students and professionals with less than 5 years' experience in the field of Optical Radiation Measurement, Measurement with Optical Radiation and other topics within the scope of CORM.*

Deadline for abstracts is April 17, 2017;
Presentation materials are due by June 26, 2017.
Please contact the conference coordinators for details.
